Akcwalsh@gmail.com

Objective

Seeking to keep my favorite hobby as a career. Techie, through and through with great interest in technology/design trends. Desire to use strong interpersonal skills to create good relations between clients and team members. Thrives best in an environment that has a mindset of consistent improvement and learning.

Projects

Walsh Web Works — *Personal Design Business*

Showcasing some of my work, initiative, and ideas.

See walshwebworks.com for more details.

Experience

WINDFALL inc, 1800 S Reserve St — *Web Developer*

August 2016 - Present

Break down client needs into programmable solutions that look great, function well, and fit modern programming standards. Generating easily readable code, for work with other developers. Creating/manipulating wordpress themes, building ground up applications, with database interactions and management through PHP.

Longhorn Steakhouse, 4585 E Cactus Road — *Waiter*

August 2013 - July 31 2016

Deliver friendly and efficient service to guests with the aim of creating "regulars" and using tools like suggestive selling to help the business. Memorized intricate menu details, functioned in heavy team environment, helped to train new employees on serving technique.

Education

Scottsdale Community College
2015 | Web Development
Paradise Valley Community College
2013 | General Education

SKILLS
